AMERICAN CHERRY

RED OAK

AMERICAN WALNUT

PLEASE NOTE: Customers should always obtain the actual color selections card or samples before specifying as computer monitors and color printers vary in their ability to display color.

Wood Veneer

Flat Cut Architectural Grade Selections

SCOPE

The Panelfold genuine wood veneer collection is the discriminating choice for installations which demand the elegance of natural woods and the attention of hand craftsmanship. Wood veneers are available for use on the following Panelfold product models:

	Unfinished	Clear Lacquer Finish	Custom Finish
Scale®/4, /6, /8, /12	Optional	Standard	Optional
Sonicwal®, All Models	Optional	Standard	Optional
Moduflex®, Series 400/600	Standard	Optional	Not Available
PrimeSpacer®, All Models	Standard	Optional	Not Available

SPECIES

You may select from White Ash, White Maple, Natural Birch, American Cherry, Red Oak and American Walnut veneers from our in-stock program or choose from an extensive collection of exotic wood species which is available upon request. Price upgrade will vary with the species you choose.

FINISH

The finish on these samples is our standard clear lacquer that protects while highlighting the natural characteristics of the species. The clear lacquer finish is standard for all Scale® and Sonicwal® models. All Moduflex® Series 400 and Series 600 panels and PrimeSpacer® panels are book and sequence matched and are available unfinished, with a light pre-sanding, ready for field preparation/sanding and finishing, or optionally in clear lacquer finish. Scale and Sonicwal models may be ordered in clear lacquer finish or unfinished, or may be factory stained and finished to match your exact sample for color, shading and gloss of surrounding wood work, paneling or furniture. Unfinished doors and partitions cost slightly less than standard clear lacquer panels and custom finishes are slightly higher.

NOTE

Due to the inherent variations of the natural color and grain of genuine wood, the finished product may vary from the samples shown on this card. These samples are only intended to represent the species and do not show the full thickness or composition of the panels.
